THE STRIKERS LOSE

Court Decided in Favor of Company in Pittsburg Steel Strike.

FEAR OF MORE RIOTING

Efforts Were Made to Stop Strike by Enjoining Principals and the Commonwealth—Others Strike in Pennsylvania.

(By Wire to the Morning Star.)

Pittsburg, July 20.—The first effort on record in the United States to stop a strike by enjoining both the principals and the commonwealth failed today, when Judges Ford and Brown, of the common pleas court, sustained the demurrer of the Pressed Steel car company to the petition for injunction made by the Public Defense Association of Pittsburg against the company the striking employes and the sheriff of Allegheny county.

For the strikers, who admitted the conditions as set forth by the petitioners, and who joined in the demands of the Defense Association that the court force arbitration upon the company officials it was argued that it was high time for the courts to interfere. For the Defense Association it was argued that the strike is costing tax payers much money and has great uneasiness.

The decision of the court establishes a precedent and caused general comment as the opinion handed down is far reaching in effect. Attorneys commenting upon the action were universal tonight in their opinion that Judges Ford and Brown were entirely within legal right in their ruling.

The decision does not, however, tend toward making the situation at the Schoenville plant of the Pressed Steel Car Company at McMees Rocks any better.

When the strikers heard late today that they had lost their standing in court and again were facing the company only without an arbitration council in sight, ugly rumors were circulated as to what the car company officials might expect from now on in the way of rioting and general disorder.

Fewer men were at work today in the car plant than yesterday. There were rumors that the company intends to import strike breakers.

The McKees Rocks Saloon Keepers League threatens to bring suit against the county to recover damages for their losses.

Announcement was made by the authorities that there is no thought of withdrawing the constabulary.

New Castle, Pa., July 20.—An attempt to conduct 125 alleged strike breakers through the city on their way to the tin mills caused a riot late this afternoon during which one man was seriously injured and scores of others beaten and bruised.

Harry Ringer and James Warren are in jail charged with attempting to incite riot. The men, both of whom are said to live in Cleveland, were leaders among the new employes. They arrived in New Castle this afternoon and marched down the street shouting defiance at the strikers. The entire party, accompanied by seven special policemen, were attacked by crowds on the sidewalks.

Eight of the alleged strike breakers and all of the special policemen were arrested by city police. No strikers were arrested. Those arrested were said to be armed with knives and revolvers.

CASHIER IS AN EMBEZZLER

Ran Away From Anderson, S. C., Leaving Note for President—Speculation the Cause of His Downfall, He Says.

(By Wire to the Morning Star.)

Anderson, S. C., July 20.—It was reported today that Cashier J. T. Holleman, of the Bank of Anderson, who suddenly left for parts unknown Sunday morning, had embezzled approximately $35,000 of the funds of the bank.

A letter left by Holleman, addressed to the president of the bank, states that he lost the money in speculation in cotton. The letter was found in the cash box. It is reiterated that Holleman began speculating one year ago with $600 which he had saved. After losing this be borrowed $1,000 from the bank but his losses continued, and then he admits he began using the bank's money freely.

Holleman directed that all of his real and personal property be turned over to the bank officials, which is small compared with his shortage. The directors issued a statement today in which it was announced that Holleman's defalcation would not be over $35,000 and that the bank would not be impaired. Its surplus is $225,-000. State Bank Examiner Wilson is making an examination of the bank's books.

Holleman is 50 years of age and has a wife and several children. He had resided here for 20 years and enjoyed the confidence of the citizens generally.

WRIGHT MAKES NEW RECORD.

A Spectacular Flight Lasting Over an Hour at Fort Myer.

(By Wire to the Morning Star.)

Washington, July 20.—Establishing a new record for aviation in America, Orville Wright in the Wright aeroplane late today at Fort Myer made a spectacular flight of one hour and 20 minute and 45 seconds duration. His longest previous flight was 74 minutes made by Mr. Wright at Fort Myer last Fall.

During the entire flight the machine was under perfect control but several times appeared to the spectators to be on the point of diving forward.

The machine traveled a distance of about 70 miles, it was estimated by Wilbur Wright and at one time during the flight the height attained, between 260 and 280 feet, exceeded the highest point ever attained by a heavier than air machine on this continent.

DROP DEAD FROM SHOCK.

Sister Saw Her Brother Severly Injured and Fell in Her Tracks.

(By Wire to the Morning Star.)

Columbus, Ga., July 20.—When his horse dashed under a shelter today at his home near Lumpkin, W. J. Davis' head was struck by a swinging rafter and he was severely injured. A sister who witnessed the accident dropped dead as a result of the mental shock.

BAD RUNAWAY IN RALEIGH

Rev. R. S. Stephenson Had Frightful Experience—Bankers Confer With Commission—Dean of Medical School.

(Special Star Telegram.)

Raleigh, N. C., July 20.—Dragged 50 feet under his buggy by a runaway horse, Rev. R. S. Stephenson, superintendent of the Raleigh Associated Charities, was painfully injured today but his life is not in danger unless internal injuries develop.

The horse of the Southern Express Co., dashed headlong against the buggy, overturned it and Mr. Stephenson's horse dashed off, dragging him fifty feet over the cobblestones before he was stopped.

President J. O. Ellington, of the North Carolina Bankers' Association, and a number of other officers of this organization, held a conference with the Corporation Commission today with reference to the position of the bankers in the matter of the ruling of the Commission that banks shall not have their holding in State and other non-taxable bonds deducted from assessed value of their stock. With Messrs. Brown, Jackson, Pullen and Johnson the situation was thoroughly discussed and the position of the bankers in opposition to the ruling was made clear. No statement is made yet as to whether there will be any test case.

The trustees of Wake Forest College elected today Dr. J. D. Powers, dean of the Medical Department, to succeed Dr. W. S. Rankin, who retired to become secretary of the State Board of Health. Dr. Powers is a Wake Forest man and has been two years in Bellevue Hospital, New York.

Judge W. R. Allen rules that the $500,000 bond issue for enlargement of the State hospitals is valid on the ground that the amendment is immaterial, therefore, it was not necessary to have had separate day roll call readings. The case now goes to the Supreme Court for final adjudication.

DAY IN CONGRESS

House Was Surly and Disposed to Wrangle Sharply.

TAFT'S TRAVELING EXPENSES

Bill Passed Allowing Him $25,000. Democrats Fought It But Failed. No More Graft For Givernment Employes.

(By Wire to the Morning Star.)

Washington, Junly 20.—The Urgent Deficiency bill was passed by the House today after four days of tempestuous debate. The amount carried by it is $454,809, or $20,408 more than the original sum, and includes $25,000 traveling expenses for the President.

The session began calm enough but as the day wore on the members got into a more or less surly mood, and this led to a succession of objections to amendments and to almost every one of the remaining paragraphs, some of which were sustained.

After denying the usual extra months' pay to officers and employes of the capital, the House threw out of the bill the allowance of the extra work to committee stenographers and then turned in and refused to carry out a mandate of the United States Supreme Court for the payment to J. M. Caballos & Co., of New York, of $205,614.

Finally, the Democrats led by Mr. Bowers, of Mississippi, sought to defeat the proposition for the payment of the President's traveling expenses, but in that they were unsuccessful.

Bonding companies must return to the rates of 1908 if they hope to get any business from officers of the Government occupying positions of trust. The urgent deficiency bill contains an express prohibition against the payment of the higher premiums determined upon last year by the companies.

In the course of a discussion of the merits of the proposition, Mr. Tawney gave notice that before the present extra session closed he would endeavor to have adopted a resolution authorizing a committee to thoroughly investigate the subject of the bonding of Government officers.

Bitter denunciation wah heaped by Mr. Smith, of Iowa, upon the bonding companies, which he said had entered into a combination to boost their premiums 300 per cent.

Opposing the provision, Mr. A. M. Palmer, of Pennsylvania, declared the proposition was one simply to legalize a boycott against the strongest companies in the country.

Mr. Gill, of Maryland, attacked the paragraph on practically similar grounds.

There is weeping and wailing among the officers and employes of Congress. The long established custom of granting them an extra month's salary each year was ruthlessly swept away in the House today when Mr. Wagner, of Pennsylvania, the presiding officer, sustained a point of order made by Mr. Macon, of Arkansas, against the proposition.

In vain did Mr. Olmsted, of Pennsylvania, father of the proposed appropriation, plead for the withdrawal of the point.

Messrs. Macon and Sisson, of Mississippi, were especially antagonistic. They practically charged graft, and said the time had arrived to put an end to it.

Senate Proceedings.

Washington, July 20.—When the Senate met today Senator Brown, of Nebraska, sought to have adopted the joint resolution directing the Secretary of State to transmit to the Governors of the various States copies of the resolution providing for a constitutional amendment authorizing the lavying of an income tax, but under objection from Senator Kean consideration was postponed.

Mr. Kean raised the point of order that under the agreement to transact no business while the tariff bill is in conference, the resolution could not properly receive attention.

During the discussion Mr. Bacon declared that if the agreement was to be so strictly interpreted, it would be out of order for the chair to lay any ordinary communication before the Senate. But Mr. Kean carried his point.

No business of moment was transacted and the Senate adjourned after a 25 minute session.

SOUTHBOUND RAILROAD CO.

H. E. Fries Elected President, T. M. Emerson, Vice President.

Shaffner, treasurer; M. H. Willis, auditor; Foster Wilkinson, secretary; O. H. P. Cornell, chief engineer; E. T. Burnett, purchasing agent. The new board of directors is as follows: L. E. Johnson, T. M. Emerson ,Alex Hamilton, Joseph I. Doran and H. E. Fries.

Contracts for the extension of the road to Wadesboro, N. C., will be awarded August 2nd. The road will be operated as a through line from the irginia coal fields to the Atlantic seaboard.

ROW OVER TARIFF

Serious Differences Between Senate and House Republicans.

PAYNE STICKING TO TAFT

Senator Aldrich and Speaker Cannon Carry Trouble to President. Southern Congressmen Will Fight Any Discrimination.

(By Wire to the Morning Star.)

Washington, July 20.—The tariff bill was hoisted above the bickerings of congressional conferees today and transferred bodily from the Capitol to the White House. Deadlocked because of the attitude of Representative Payne, who apparently has become possessed with the growing conviction that he is in the minority, the conferees abandoned the usual afternoon session. Senator Aldrich and Speaker Cannon repaired to the White House post-haste to consult with President Taft, literally taking the tariff bill with them.

What happened at the White House between the President and the Senate and the House leaders is a sealed book. When Messrs. Aldrich and Cannon returned to the Capitol they minimized the differences that had aroused bitterness in the conference and insisted that nothing unusual had occurred.

Nevertheless there has been trouble behind those closed and guarded doors that shut the public from the room where the real tariff bill is being constructed. Some say that the differences between Senator Aldrich and Representative Payne have taken such form that progress is impossible unless the President has influence enough to compel action.

From a creditable source it was learned that a crisis was reached when an effort was made late yesterday to vote on lumber. Mr. Payne protested and argued that such a move would be unfair to the President, as this was one of the subjects practically submitted to him for adjustment, providing he could get votes enough in the two houses to adopt compromise rates.

Mr. Payne is reported to have said that he would not sign a conference report merely because a majority of the House Republican conferees had agreed to it. With his coat tails furled about him Mr. Payne stalked angrily from the room.

When asked why an early adjournment was taken today, Mr. Aldrich and other conferees said it was to give all of them an opportunity to consult with colleagues and constituents about proposals for the settlement of numerous amendments.

The 23 Republicans of the House who called upon President Taft recently to plead with him to recede from his position in favor of free raw materials, were considerably alarmed today when they learned of Chairman Payne's action. It was said that their number was increased through the support of Representative Hughes, of West Virginia, who was not in the party that visited the White House.

The possible attitude of the House Democrats was one in which they took great interest. It was said that in the event that President Taft and Mr. Payne were successful in obtaining a conference report carrying out the free raw material programme, a large number of the minority would be found supporting the 24 Republicans if they decided to vote against the conference report.

A conference of the progressive Republican Senators was held immediately after the Senate adjourned. After the conference Senator Dolliver said:

"The Republicans who were unable to vote for the pending tariff bill when it passed the Senate have been greatly pleased and encouraged by the efforts of the President to change the character of the measure by the exercise of his influence with the conference committee. It is our earnest hope that he will be successful in securing real revision.

"It is evident from what he has said through the press that the President seeks not only to reduce the duties on certain so-called raw materials, but to moderate the high rates upon manufactured articles."

Democratic Senators said that Senator McEnery will be the only member of the Senate minority who will vote for the adoption of the conference report.

The House rate of four cents a pound on monazite sand, used in making gas mantles, was adopted by the conference today in preference to the Senate rate of six cents a pound. Gas mantle scrap, which the Senate had provided with a materially lower duty than on gas mantles was placed in the same paragraph with the same rate of duty. It was contended that monazite said is controlled by a monoply on the monazite deposits in this country.

Sixteen miners were killed by an explosion of fire damp in a mine at Mansfield, Prussia, yesterday. Many other workmen were taken from the mine unconscious and conveyed to a hospital for treatment.

BASS GUILTY SECOND DEGREE

Charged With Murder of Major A. B. Parker Last May—Sentenced to 15 Years in Penitentiary. Plea of Insanity.

(Special Star Correspondence.)

Clinton, N. C. July 20.—The jury in the Bass murder case after being out all last night returned a verdict of murder in the second degree early this morning. Counsel for the prisoner suggested that the prisoner was not now of sufficient mental capacity to receive sentence, and thereupon Judge Allen delayed passing sentence for three hours and had the prisoner examined by Dr. John A. Stevens and others.

The Judge found from the examination that the prisoner was of sufficient capacity to receive sentence which was accordingly passed upon him. He was given a term of fifteen years in the penitentiary. Counsel for the defense gave notice of appeal and an appearance bond of $15,000 was required of the defendant.

Bass has undergone a perceptible change for the worse in physical appearance since his confinement in jail and had a wan and haggard expression combined with an indifferent air while on trial. His plea was insanity and much of this was proved to have existed in his immediate family. He had been reared an orphan, both his parents having been dead for many years. The verdict in his case is in harmony with public sentiment here.

Expert testimony was given in the trial of the case by the following physicians for the State: W. H. Faison, superintendent of the Eastern Hospital at Goldsboro; George F. Lucas, of Currie, John B. Wright, of Marion; Henry Sloan, J. A. Stevens, G. L. Sikes, G. M. Cooper, and Paul Crumpler, of Sampson county. For the defense expert testimony was given by Doctors W. S. Anderson and B. T. Person, of Wilson, and F. H. Holmes, of Clinton. It is now estimated that the cost of this case to Sampson county will not exceed $1,200. Counsel for both the State and the defendant made a hard fight and the arguments before the jury were among the ablest heard at this bar in some time. The prisoner is well connected and relatives came to his rescue at this critical hour with the sinews of defense and saw that he had ample and able counsel.

Judge Allen left this afternoon for Onslow county whose court has been awaiting him since Monday morning.

POSTAL IN GOLDSBORO

New Offices Opened There Yesterday in Former Ticket Office.

(Special Star Telegram.)

Goldsboro, N. C., July 20.—The Postal Telegraph Company, opened an office in Goldsboro today in one of the rooms on Centre street, formerly used by the railroad company, as a passenger ticket office. This is the first time Goldsboro has ever had a competitive telegraph service.

PRESIDENT DAVIS' DAUGHTER

Funeral of Mrs. Hayes Will Take Place Today—Temporary Sepulchre at Colorado Springs. Interment at Richmond.

(By Wire to the Morning Star.)

Colorado Springs, Colo., July 20.—Preparations for paying the last rites of respect to Mrs. Margaret Howell Jefferson Davis-Hayes, the "Daughter of the Confederacy," whose funeral will be held here tomorrow morning at 11 o'clock, is the absorbing topic in the Pikes Peak region today.

Mrs. Hayes had a warm place in the hearts of the residents of the region and its visitors. Her spacious home was famous for its hospitality, both for town folk and those coming here, and her quiet charity made her beloved by the poor.

Most of the usual social festivities at Broadmoor Casino were omitted last night, there being a comparatively small number of persons in attendance.

Definite details in regard to the funeral arrangements have not been made except that the services will be held at the residence tomorrow at 11 A. M., and will be private owing to the lack of accommodations for the crowds that otherwise would attend.

The Rev. Arthur N. Taft, rector of St. Stephens' Episcopal church, and the Rev. Henry Rutgers Remson, rector of Grace Episcopal church, will officiate. The service will be simple and it is probable there will be no music, except a song by Mrs. John Speed Rucker, a friend of the family.

Following the services, the ashes which have been placed in a casket of usual size, will be taken to Evergreen Cemetery here, where they will remain in the public receiving vault until Fall. They will then be taken to Richmond, Va., for burial.

The casket is of simple design, covered with the usual black broadcloth and bears the inscription: "Margaret Howell Jefferson Davis-Hayes. Died July 18, 1909."

A tall, lithe, debonair young gentleman surnamed Sexton was the whole show in the game with Goldsboro on the grounds of the latter yesterday afternoon, letting down the heavy-hitting Giants with but a single hit, issuing no free transportation, allowing no hit batsmen and contributing his share in the general process of taking the second game for the Sailors by the very comfortable score of six to naught.

The work of Sexton, who has not heretofore been given the opportunity of showing what he is on the mound, according to his admirers, was watched with much interest by the large crowd of "bugs" at the electric matinee at Struthers' and his victory was received with loud acclaim. Wilmington started in the very first inning with a determination to win and Nichols, first up, smashed one past third and was sacrificed by Guerrant but was forced by Smith's hit to third Smith taking second. Then Orie Brodie was up and smashed one over second while Smith crossed the rubber, Brodie being later forced at second by Levy's hit to short. The first three up for Goldsboro were out from the infield.

The Sailor lads came back at 'em in the second after Sharp was out to first. Jayes singled to centre and stole second, scoring a minute later on Kite's double to left, Sexton was then up and Sheridan relieved Stoehr in the box for Goldsboro; Sexton flew out to left and Nichols fouled out to third. Crockett and Sharp were fanned for Goldsboro and Doak was out, pitcher to first.

With the exception of a single by Sheridan both teams were out from the infield in the third but in the fourth Wilmington got busy again when Levy, first up, hit to second who threw wild to first and allowed the runner another base; Sharp hit to pitcher, who was slow and each runner got a base; then while Jayes was going out, pitcher to first Levy scored. Sexton was out short to first. Flies by Gettig and Crockett to the outfield and Steinbach out third to first constituted Goldsboro's half.

In the fifth Nichols led off with a clout to centre but was out trying second; Guerrant and Smith out pitcher to first. For Goldsboro Doak flew out on sensational catch of Jayes; Sharp was out third to first, and Robertson pitcher to first.

After Brodie was out on fly to short and Levy third to first, Sharp walked; Jayes singled to left but Sharp was out trying to steal third. Goldsboro was out in order, Fulton, Sheridan and Smith.

Kite started the seventh with a bingle to right; Sexton beat out a bunt; Nichols out pitcher to first; Guerrant hit hot to pitcher and on wild throw home, Kite and Sexton tallied, Guerrant being out trying third; Smith was out pitcher to first. Gettig, Steinbach and Crockett were out from the infield for Goldsy.

Brodie started the eighth with a clout to left but was forced by Levy's hit to third; Sharp drew a pass but Jayes flew to left and Kite to pitcher. Doak got the first hit of the game for Goldsboro and after Sharp flew to Sharp, Robertson hit to second and the two runners were out on a double.

In the ninth Sexton was safe on error of third; Nichols bunted to third who threw wild but Sexton was out trying to get home in the confusion, Nichols safe at third; Guerrant bunted out down first base line and Nick scored, Smith flying out to centre. For Goldsboro Stubbe batting for Fulton fanned; Hemp for Sheridan was out second to first and Smith flew out to centre and dusk settled over the hopes of the Champs.

A SENTIMENT THAT IS TAKING DEEP ROOT.

The following paragraph occurred in an editorial in The Star upon the tariff bill when it was being discussed in the Senate:

> "Finally, brethren, when the trough gets to overflowing with protection swill we want to see the South's nose in it along with New England. We don't want the South content to sit on its haunches and look gaunt while New England's paunch fairly drags the ground after deliriously gorging herself by herself for herself."

Unfairly singling out the above without accompanying it with the preceding paragraphs which justified it and led up to it, Charity and Children, published under the auspices of the Baptist Orphanage at Thomasville, makes this reference:

> "Passing by the coarseness of the figure of speech employed by the Star (for which we ask pardon of our readers) we desire simply to illustrate a sentiment that is taking deep root in certain sections of our beloved Southland, namely that because New England has grown rich robbing the people we shall go to robbing too, and thus grow rich ourselves. Such a sentiment, in a reputable newspaper, is as surprising as it is unworthy."

If Editor Johnson had characterized the Star's expressions as inelegant we would have to plead guilty, but we've got to protest about that word "coarseness." It sounds too brutal, too vicious, too uncharitable for Charity and Children, and besides we are surprised at a paper supposed to be eleemosynary and not partisan in its conduct, to be the least intollerant. However, our good brother Johnson is a sort of free lance, and we will have to overlook such expressions as secular contemporaries have never thought of applying to any of our scattering remarks. However, we'll let that all pass without even hinting that the words thrown at us by Charity and Children are the least indecorous.

The editorial from which the very esteemed Charity and Children excerped the offending paragraph was in defense of the position taken by Senators Simmons and Overman and five Democratic Representatives from North Carolina who refused to be so unrepresentative of the people of North Carolina as to sit in their seats in Congress and permit a Republican majority to levy a high protective tariff on New England products, and, for a very good reason on behalf of manufacturers up North, put North Carolina's raw material on a free basis. We were objecting to the inequality of such tariff legislation and objecting to a policy that protected any section to the disadvantage of this section.

The principle involved in the iniquity of an exhorbitant tariff against reasonable duties as advocated by the Democratic party was in no wise involved. The theory of the question was past and we were facing a condition. That condition was that a Republican majority had already determined upon giving the manufacturers high duties upon their products, in spite of the efforts of the Democrats to secure legislation in accordanve with the Democratic idea of the tariff. Having so failed it was the duty of the Democrats then to see to it that the Republican legislation bent upon should not possess such an element of inequality as to place Southern raw materials and products at a disadvantage. It has been that policy, that inequality which has made the North rich and the South poor, and the people here are tired of it. We believe we voice their sentiments when we say so and certainly it is ill advised economy to see all the protection flowing North and none flowing South. It would be equally as false economy when the tariff is revised downward for New England to hold out for high duties and see the burden lifted off the balance of the country. The Star has not endeavored to violate the principle involved in this taxing method of the Nation, but has endeavored to insist that, whether the tariff is revised upward or downward, there should be no element of inequality in any such legislation. We were standing for a square deal for the South, and we are surprised to see any Democratic paper, even though hidebound in the theory and so-called principle of the thing, that will not stop to consider the economy involved in the question.

Charity and Children is quite right in its desire "to illustrate a sentiment that is taking deep root in certain sections of our beloved Southland, namely, that because New England has grown rich robbing the people we shall go to robbing, too, and thus grow rich ourselves." It is the fact that New England has done it all right and is still doing it to the disadvantage of the South, that is making that sentiment "take deep root." You can call it robbery if you like, but the sentiment that is taking root is that New England shall no longer get its loot to the disadvantage of a South that has prated about principle and looked less to the science of economy that gives her a square deal with the balance of the country.

The South doesn't want any lopsided tariff but one that distributes the benefits or burdens equitably. It is not any part of the Democrats in Congress to insist on what they can't get according to the Denver platform but to get an equal showing for the entire country in legislation that a Republican majority will enact in spite of thunder.

Some of our Southern papers ought to be possessed of the fear that if the South cannot get an equal showing by Democratic insistence under the circumstances, it might be tempted to go into the Republican party as a protest against folly.

THE COMMERCE OF WILMINGTON.

In the local columns of this morning's Star we carry a synopsis of the annual report of Captain Earl I. Brown, Corps of Engineers United States Army, in charge of river and harbor improvements in this district. The report is made to the chief of engineers, Brigadier General W. L. Marshall, Washington, D. C.

Considering the fact that 1908 was a panic year, the most far-reaching in its disastrous effect upon commerce and trade of all the previous panics, Wilmington makes a good showing. The total commerce of the port for 1908, embracing exports and imports, amounted to 864,071 tons of commodities, valued at $49,753,175. The commerce for 1907 embraced 870,556 tons, valued at $50,800,793. The decrease last year as compared with the previous year was 6,485 tons and in value $1,137,618.

The imports from strictly foreign countries the past year amounted to $1,226,849. The exports foreign and coastwise, last year embraced 288,450 tons of the value of $32,972,012, and the internal exports footed up 92,595 tons of the value of $3,870,664. The imports foreign and coastwise amounted to 290,141 tons of the value of $10,243,789.

As to river and harbor improvements, Captain Brown's report makes a most gratifying exhibit. There was spent on the Cape Fear River at Wilmington and on the bar $262,507.81, leaving an available unexpended appropriation of about $400,000. The several dredges removed 2,776,803 cubic feet of sand, mud and material, including 466 logs and 141 stumps.

The results accomplished were most gratifying. At the time of the adoption of the present project of river and harbor improvement, the depth of water on the ocean bar was 16 feet, and the river channel from Wilmington to the bar averaged 16 feet, with the channel 223 feet in width. Since work began upon the present project, Captain Brown's report shows that a channel 300 feet wide and 20 feet deep at mean low water, has been dredged across the ocean bar, with a narrow channel 22 feet deep through the centre of the bar. The river channel from Wilmington to Reeves' Point, 20 miles below Wilmington, now carries an average depth of 24 feet at mean low water, and from Reeves' Point to the bar the channel averages on shoals 22 feet deep at mean low water. The shallowest point is a small strip on Reeves' Point shoal, where the depth is 20 feet, but soon the dredges will be transferred to that point and the aim is to dredge it to a depth of 24 feet.

The depth of the water on the bar and in the channel is increased at high tide by a rise of 4 1-2 feet on the bar and 2 1-2 feet at Wilmington, giving us navigable water of from 26 1-2 to 27 feet from Wilmington to the sea.

The general work of deepening the river and bar channels will proceed, and if equal results are accomplished in the next 12 months, the Cape Fear will be in a condition to carry much larger ships than heretofore. Even previous to this steamships carrying more than 18,000 bales of cotton have cleared at Wilmington and gone to sea and the constant improvement under the systematic and active direction of Captain Brown gives the future work decided promise.

The value of providing sufficient water for the commerce of this port is emphasized by the fact that during last year Messrs. Alexander Sprunt & Son, cotton exporters, cleared 34 steamships carrying 415,307 bales of cotton, with a tonnage of 75,734.

The vessels of all kinds which arrived in this port last year was 250, with a tonnage of 336,347.

Mr. E. H. Harriman, the railroad magnate, sends back word from Europe that he has recovered and "feels like a three-year-old." This means that railroads will have to do their best to keep out of his way if they don't want to be his.

"BABY MINE"

Becoming a mother should be a source of joy, but the suffering incident to the ordeal makes its anticipation one of dread. **Mother's Friend** is the only remedy which relieves women of much of the pain of maternity; this hour, dreaded as woman's severest trial, is not only made less painful, but danger is avoided by its use. Those who use this remedy are no longer despondent or gloomy; nervousness, nausea and other distressing conditions are overcome, and the system is prepared for the coming event. "It is worth its weight in gold," say many who have used it.

MOTHER'S FRIEND

SATURDAY EVENING CHRONICLE.

The Saturday edition of the Charlotte Evening Chronicle will hereafter, appear as the Saturday Evening Chronicle. It will carry several special features and will have more volume than the regular issue heretofore, and in every respect it will take its place alongside of the Sunday papers as an entertainer. The Chronicle is a fine publication and Editor Wade Harris is making it a news purveyor and entertainer that is second to none in the State. Last Saturday's edition carrying its regular news matter and its special features was a production that made itself a welcome visitor wherever its circulation carried it.

The Durham Herald makes this note: "The Democrats should make no further reference to the Republican pie counter unless they can stop Democrats from fussing over the pie that by rights belongs to the Republicans." Knowing what we do and seeing what we have seen and are still seeing, we simply haven't got the heart to refer to the office-hungry Republicans as the "pie brigade." There are times when we either have to be just or else have to be powerful particular with out beautiful glass house.

When doctors or alienists go on the witness stand and swear that an accused defendant is crazy, what can a jury do about it?

CURRENT COMMENT.

It is said that Judge W. B. Council may be a candidate for Congress from the Eighth district. His record as a jurist has been such that he would give any man a hard race and would be a creditable representative.—Winston-Salem Journal.

—"Savoyard" says that "Gore has made more reputation as a debater in the present session of Congress than any other Senator, not excepting Dolliver and Cummings." A man of ability dominated by great faith, perfect sincerity, and unwavering consistency is the greatest power this world has known or will ever know. —Raleigh News and Observer.

—Of course, the esteemed Wilmington Star and The Charlotte Observer noted that it was Gideon Welles, not The News and Courier, who called attention to the defection of North Carolina to the Southern Confederacy in 1863. But what has The Star to do with this matter, anyhow? The people on the North Carolina coast were loyal, of course; the "Union men" lived up in the mountain country. Besides, it is no part of the proper function of a Star to help an Observer out of a hole into which it has fallen.

—This spirit of pride and courage, speaking of the death of Col. Marcellus Pointer, is one of the things that distinguished the old South which the new South can ill afford to lose. Neither business success nor commercial prosperity can take the place of devotion to high ideals and power, and the South will do well to treasure not only its honorable history and traditions, but that rich heritage of the sensitive honor and personal pride which raised its people above the level of mere trafficker in the market place.—Baltimore Sun.

TWINKLINGS.

—The Major—"I saved that rose you gave me last week, Miss Antique; for though it withered it still reminds me of you." Miss Antique—"Sir!"—Christian Work and Evangelist.

—A Dutchman who had lost several hundred dollars in dealing in options was asked whether he was a "bull" or "bear?" "I vas neither; I vas a shackass," he replied.

—Judge—"You are a freeholder?" Talesman—"Yes, sir, I am." "Married or single?" "Married three years last June." "Have formed or expressed any opinion?" "Not for three years, your honor."—Success.

—Willie—I saw you kiss Sis, and if you don't give me ten cents, I'll tell. Young Man—Here's your dime. Willie—Thanks. That makes $3.00 I've made this season. —Kansas City Journal.

—"Now Tommie," said the teacher, "you may give me an example of a coincidence." "Why, er," said Tommie, with some hesitation—"why, er, why—me fadder and me mudder was both married on de same day."—Harper's Weekly.

On to Columbia! The Trip That Beats Them All.

Thomas H. Knight will run his annual excursion from Wilmington, N. C., to Columbia, S. C., on Monday, August 2nd, when a rare chance will be given to visit one of the most beautiful cities of the entire South at a trifling cost. Columbia aside from its historical interest is a city of generous hospitality. It stands alone in its particular individuality and beauty, and is conceded by travelers who have been everywhere to possess a charm peculiarly its own, about which clusters a wealth of historical associations. There the excursionists will find sources of pleasure which appeal to every taste. It must be seen, its charm is lost in telling. Knight's excursions are always popular and are patronized by the best people everywhere. Train will leave this point at 7:00 A. M. and will leave Columbia Tuesday night at 9:00 P. M. August 3rd. The fare from here is only $2.50. Don't miss the trip of your life.

Put a Piano in Your Home and Save $113

If you can spare a few cents a day you can join the Ludden & Bates Piano Club and have a piano in your home at once. For $287 we sell you an elegant, high grade cabinet grand piano valued at $400. Right here you save $113, but we also arrange for a free musical education for you—instruction that has the approval of the country's foremost experts. The piano is placed in your home upon payment of the initiation fee of $25 and the balance can be paid a little at a time to suit your convenience.

We offer this unparalleled opportunity because we sell in lots of one hundred instead of one—that is the club plan—and you get the benefit of the big saving.

The Ludden & Bates New Scale PIANO

embodies finest material and workmanship, and is equal to highest priced instruments.

It has full metal frame, overstrung bass, copper wound strings; the full, clear, sweet, "singing" tone found only in the best pianos—case in several superb designs, in mahogany, oak or fancy walnut. It is guaranteed for a lifetime.

If the head of family dies we cancel club contract and the piano is yours without payment of another cent, and remember that with all this high quality—all insurance against loss, we teach you music free. A stool and scarf are given free with every piano.

Write us at once for an application blank and complete description of different styles of finish. We will select a piano of just the exact style and wood you desire. We will see that you get a perfect instrument in tone and action.

Write for full information at once—club is now forming.

PRIEST FEARED VIOLENCE.

Father Holtgrieve Resigned Pastorate and Fled—Criminal Libel.

(By Wire to the Morning Star.)

New Orleans, July 19.—Declaring that he had resigned his pastorate at Plaquemine, La., and left that place forever, through fear of personal violence, Rev. J. J. Holtgrieve, a Catholic priest, arrived in New Orleans today.

Father Holtgrive for the past two years has been the storm center of a bitter factional fight in Plaquemine. In addition to his pastoral work, he also conducted a newspaper in that town, and publication therein led to a charge of criminal libel against him. He was recently convicted and a small fine was imposed on him. His editorials charged political corruption in Plaquemine.

Father Holtgrieve declared today that charges filed with the church authorities against him were false and had been trumped up by his political enemies.

MORE THAN LIFE SENTENCE

Three Kentucky Men Given 10 Years in Addition to Life Sentences.

(By Wire to the Morning Star.)

Richmond, Ky., July 19.—Imprisonment for life and ten years additional servitude was the sentence pronounced today on Bery Simpson, Elisha Slavin and George Stanley by United States District Judge Cochran. The three men were convicted of the murder of a Federal deputy marshal in a mining riot at Strearns, Ky., on Christmas day 1908. The additional sentence of ten year is for alleged disobedience of a Federal injunction in the mining controversy.

Oliver Slavin and Jesse Simpson the latter a son of Berry Simpson, were sentenced to three and five years respectively for disobedience of the strike order. The men were taken to Atlanta prison tonight.

GOVERNOR VISITS SPRINGS

Spent the Week at Seven Springs and Expects to Return.

(Special Star Correspondence.)

Seven Springs, N. C., July 10.—Governor Kitchin has been spending several days here, drinking the healthful water from the Springs, and has been benefitted by his short stay. He was called to Raleigh Sunday morning and from there goes to Morehead City. The Governor expects to return in about two weeks and complete his stay.

Among other visitors at the Springs have been Mr. and Mrs. Hans A. Kure, and son, and Mr. Dan Benton and Miss Smith of Wilmington, who returned home Sunday morning. The Springs are a popular and healthful resort.

DR. THACKER CALLED

Norfolk Minister Will Become Secretary of Missionary Work.

(By Wire to the Morning Star.)

Norfolk, Va., July 19.—Rev. Dr. J. Ernest Thacker, pastor of the Second Presbyterian church, Norfolk, who recently declined calls to the First Presbyterian churches in New Orleans and Jacksonville, Fla., has been unanimously called to become general secretary of Evangelical work in the Southern Presbyterian chuch a position corresponding to that held by Rev. Dr. J. Wilbur Chapman in the Northern Presbyterian church.

Dr. Thacker probably will accept.

FELL DEAD WHILE SPEAKING

Citizen of Yanceyville County, Va., Died in Sunday School.

(By Wire to the Morning Star.)

Danville, Va., July 19.—A communication from Yanceyville, says George W. Dailey, a prominent and wealthy citizen of that section dropped dead Sunday morning while addressing the Sunday school at Prospect church near that place. Death was due to apoplexy.

He was a confederate veteran and leaves a wife and two children.

—Sampson Democrat: Mr. Ira D. Alderman, of Taylor's Bridge township, sent us last week a sample of honey that he had kept sealed up for twenty-five years, having been put in a honey tumbler on the 18th of June, 1884. The first winter after it was put up the honey sugared, but it melted the following summer and has not sugared since. It was very light and clear at first, but with age it darkened till it is now about the color of dark molasses. We can't say that age improves its taste; indeed we prefer it fresh. Mr. Alderman is very successful in bee culture, and has this year taken 75 gallons from seven colonies of bees.

INCREASES WEIGHT QUICKLY

Simple Way for the Thin and Pale to be Plump and Rosy.

Samose can hardly be termed a medicine; it is in reality a flesh forming food. Taken before or after meals, it mingles with the food you eat, enables it to assimilate and readily digest so as to make rich blood and pleasing plumpness.

After Samose has been used a week or ten days a noticeable gain in weight is seen. The sallow complexion will become rosy, the sunken cheeks will have a ruddy glow, the eyes will be bright, the breath sweet and the step elastic.

With the return of good health following the use of Samose, emaciation is overcome, and the thin and scrawny are once more plump and rosy.

J. Hicks Bunting Drug Co's. customers have told them of the remarkable results following the use of Samose, the great flesh forming food and they are so thoroughly convinced of its reliability that they are selling it under their personal guarantee to refund the money if it does not do all that is claimed for it. You who are thin and in poor health cannot afford to let another day pass without getting a 50c box of Samose on those terms.

Be Prepared for Emergencies.

When a cold comes to you—or in your family—or a sudden chill—if you let it alone you are making recovery hard. A teaspoonful of Perry Davis' Painkiller in half a glass of hot water or milk will be the thing to save later and greater trouble. This old reliable family remedy sells by millions of bottles annually. 35c. (the new size) and 50c.

Singer Talks

The Many Uses of a Good Sewing Machine

¶ There is practically no limit to the variety of work that can be done with a Singer Sewing Machine. Whether for the finest embroidery, the plainest home sewing or the most elaborate tailoring, the Singer is equally efficient.

¶ Every woman takes pride in having these things, but if they be her own handiwork, the satisfaction is complete, because her own personality is reflected in every seam.

¶ The woman who uses a Singer may have everything in needlework she can desire—she is better dressed at much less cost; her children are clothed according to her own taste and ideas; she has attractive table linen, and an unending supply of dainty underwear.

¶ Moreover, she is free from the worry and delay which always comes with the use of a "cheap" machine.

The committee will be absent two or three days and will make a thorough inspection of the plants they visit. They will make recommendations to the Board of Aldermen at the next meeting. While in Washington members of the committee will call upon the Secretary of the Treasury and present for his consideration plans drawn by Alderman Bonitz for the new Custom House as it would be located on the center of the block bounded by Second, Third, Princess and Market streets.

MARRIAGE LAST EVENING

Miss Sadie Denmark Becomes the Bride of Mr. T. M. Rhodes.

At the home of the bride's mother, Mrs. D. J. Berger, No. 212 Red Cross street, Miss Sadie Denmark and Mr. T. M. Hodges, a well known youngd couple with a host of friends in the city, were united in marriage last evening at 6 o'clock, Rev. T. A. Smoot, pastor of Grace Methodist Church, officiating.

The wedding scene was particularly pretty and the parlor of the home was profusely decorated in palms, ferns and beautiful cut flowers carrying out the color scheme of green and white. The attendants were Mr. W. F. King, as best man, and Miss Sadie Lue Britt, of Goldsboro, maid of honor. A large party of friends were witnesses of the nuptial vows and at the conclusion of the ceremony extended happiest congratulations. Miss Denmark is a popular and attractive young lady with a host of admirers and the groom is connected with the Coast Line in this city.

The couple left on the 7 o'clock train for Norwood, Pa., where they will spend some time on a visit to the groom's parents.

A SKY-LIGHT THIEF.

Bold Thief Makes Over-head Entry Into Jacobi's Store.

A sky-light thief is the latest on record in this city, and the police are puzzled to solve a robbery last Sunday night at the N. Jacobi hardware store, on South Front street, which was entered by this means, and a number of articles stolen, including several pistols and pocket knives.

The culprit managed to make an unusual entrance by climbing a telephone post in the alley next to the store, then to the roof where he broke the sky-light and the crash was with such force that it was heard by three policemen on the surrounding beats, who scurried about and made a thorough search, but failed to detect the thief. They believed at the time that the noise was coming from Water street, but found everything all right. They were surprised when the robbery was made known and at once recollected hearing the crash of glass Sunday night. The thief managed to get out of the store without being detected and safely made his escape.

Snake Story of the Season.

Here is the snake story of the season. Yesterday morning while at work on the wires on the surburban line Mr. J. M. Croom, a lineman for the Tidewater Power Company, discovered in one of the lightning arresters an electrocuted snake, probably two feet in length, and from the state of decomposition had been there for some months. The lightning arrester was on the pole about 20 feet from the ground and the snake evidently entered the box through a small hole made for a wire, it being the only opening. As it would have been a hard matter for a snake the size of the one found in the box to have entered through such a small hole the theory is advanced by some that the reptile crawled in when he was much younger. The arrester was taken down and carried to the office of the company and the snake was on exhibition yesterday.

Came Near Drowning.

Prof. and Mrs. R. H. Wright, of Baltimore, who have been guests at the Northrop cottage for several days, narrowly escaped drowning at Wrightsville Beach Monday afternoon. Mrs. Wright went into water over her depth and her husband in his effort to rescue her became exhausted and it seemed at one time that both would be lost. Messrs. John K. Williams and Robert E. Calder went to their rescue and after heroic efforts were successful in getting them ashore. Prof. Wright was recently elected president of the Eastern Carolina Teachers' Training School at Greenville, N. C., and both he and Mrs. Wright have many friends here who will congratulate them upon the success of their rescue.

ENGINEER'S ANNUAL REPORT

Shows Amount of Dredging Done on the Cape Fear During Past Year. An Increase of $500,000 Appropriation Asked.

Captain Earl I. Brown, United States Engineer in charge of this district, has made his annual report for the fiscal year ending June 30th, 1909, and sent it to the chief of engineers, Washington, D. C. It is a voluminous document, covering in detail every phase of the work in the district. A Star representative had the opportunity of looking over the report yesterday afternoon and some interesting facts regarding the work on the Cape Fear, at and below Wilmington, were secured.

During the year the suction dredge Cape Fear, the clam shell dredges Ajax and Hercules, and the hydraulic dredge, Jacksonville, were engaged on the ocean bar, river channels and the anchorage basin at Wilmington. Also repairs were made to the swash defense dam at Fort Caswell, minor surveys were made and the plant repaired. The dredge Jacksonville from the Jacksonville, Fla., district, worked on the improvement for the entire year for which this improvement pays a rental of $14,965 a year. At the beginning of the year there was still due the Cape Fear improvement $15,995.14 for repairs made to the dredge before it left Jacksonville, leaving at the end of the fiscal year, June 30th, a balance of $1,030.14 in favor of this improvement.

The cost of the year's work was $262,507.81 of which amount $247,542.81 was for liabilities incurred during the year and $14,965 rent for the Jacksonville, which was paid the previous year. As proceeds from the sale of condemned property, etc., $250.37 was received and $1,000 was spent in dredging an anchorage basin at Fort Caswell, which is to be refunded by the Quartermaster Department. These items deducted from the amount given above, leaves the total cost of the work, $261,257.44. Two dump scows were purchased for $30,630 and $334.90 was expended in making inspections of the scows while the work of construction was going on.

The dredge Cape Fear removed 473,078 cubic yards of sand and mud; Jacksonville, 834,067; Hercules, 675,451; Ajax 794,207. During the year the total amount of material removed from the river channel, ocean bar, anchorage basins, etc., was 2,776,803 cubic yards; 141 stumps and 466 logs. The cost was 6.7 cents per cubic yard. The plant at the beginning of the year was valued at $190,000 and during the year additional equipment to the amount of $30,964.90 was purchased, making the present value $220,964.00. After adding 10 per cent, to the cost of the work for deterioration of the equipment the work cost 7.5 cents per cubic yard.

The result of the year's work is summed up in the report as follows: "As a result of the year's work an anchorage basin has been partially dredged in front of Wilmington, the portion completed being 24 feet deep, 5,300 feet long and varies in width from 150 to 300 feet; the channel below Reeves' Point Shoal including the ocean, which was 22 feet at the beginning of the year, have been maintained, and the 22 to 24 foot channel between the upper end of Reeves' Point Shoal and Wilmington have been maintained and increased in width. Nothing has been done on Reeves' Point Shoal, the low water depth there being 20 feet, which is the governing depth on the river."

With the available balance, approximately $400,000, and with the additional appropriation of $500,000 asked for, it is proposed to complete the repairs to dams, maintain the present dredge channels, etc. The appropriation asked for includes $435,000 for works of improvement and $65,000 for maintenance of improvement.

Attached to the report are statistics showing the exports and imports for the year ending December 31, 1908. Exports—Foreign and coastwise, 288,450 tons; value, $32,972,012; internal, 92,595 tons; value, $3,870,664. Imports—Foreign and coastwise, 290,141 tons; value, $10,243,789; internal 192,885 tons; value, $2,666,710. The total commerce, 864,071 tons; value $49,753,175; loss since preceding year, 6,485 tons; $1,137,618, which is probably attributable to the financial depression.

During the year 250 vessels navigated the river, having an aggregate tonnage of 336,347. Cotton steamers carried 415,307 bales of cotton during the year, the greatest draught being that of the steamship Shira, drawing 22 feet and 5 inches of water. Steamer St. Helena carried the largest number of bales, the number given being 15,800.

The commerce on the river above Wilmington for the year was 137,620 tons with a valuation of $3,960,235. On the Northeast river, 101,961 tons, valuation $1,618,730. On Black river, 45,998 tons with valuation of $958,409.

FOR CENSUS SUPERVISOR

Mr. Geo. H. Bellamy, of Brunswick, Candidate in This District.

Candidates for census supervisior are beginning to announce themselves and for this district it is authentically learned that Mr. Geo. H. Bellamy, a well known citizen of Brunswick county, is in the race for the office. An appointment will be made in each district at a salary of $2,000 a year and in addition to this, money will be furnished for general expenses.

It was first the opinion that the Congressmen in the various districts would recommend the appointees, but President Taft has recently decided that his actions would be guilded by the Senators and that he will assume complete control, while the appointments will be made under his personal supervision, without regard for party offiliations. It is also understood that Irving B. Tucker, Esq., of Whiteville, is also seeking the appointment for this district.

SPECIAL TERM FEDERAL COURT

Convened Yesterday Morning With Judge H. G. Connor Presiding. Some Very Interesting Motions Heard—Mails.

A special term of the United States Circuit Court, with Judge H. G. Connor, of Wilson, presiding, convened here yesterday morning at 10 o'clock, and several interesting motions came up for consideration. While there will be no jury trials the session will very likely be full of interest as some important motions have already been argued and others are to be argued and probably some cases of importance will be heard in chambers.

This is the first appearance of Judge Connor here as a United States judge and he was heartily received in his new role by his many staunch friends in Wilmington, where he is so well known and highly esteemed as a man and an able jurist.

K. C. Sidbury and J. H. Scull, Esqs., of this city, were admitted to practice in the United States courts, the former being presented by Herbert McClammy, Esq., and the latter by Robert Ruark, Esq.

One of the most important matters to come before the court was with reference to the case started some time ago by the government against the Atlantic Coast Line in which the government is seeking to recover from the railroad as bailee $9,151.54 for the loss of 45 registered mail packages and about $100 for the loss of some mail pouches in April of 1904 when two trains of the railroad company collided at Lucama, Wilson county. The matter came up yesterday on a demurrer by the Coast Line and was argued at length by counsel on each side.

It will be recalled that soon after the wreck occurred an agent of the Coast Line sold some fertilizer, which was a part of the debris of the wreck, to a farmer who, in scattering it over his place, found several diamonds, which are supposed to have been lost out of registered packages in transit from Paris to Cuba. The complaint alleged the lost of 45 packages of registered mail and sets forth in detail the contents of each.

The demurrer was read by Assistant General Counsel Geo. B. Elliott and the opening argument was by Junius Davis, Esq., one of counsel for the railroad. He contended that the government could not maintain 45 separate causes of action in one cause and that it could not sue as bailee. He was followed by Mr. Elliott, who spoke at length and presented the road's side of the question in a clear and concise manner. District Attorney Skinner contended that the railroad was liable and should be required to reimburse the government for the loss.

The railroad contends that it is not liable for mail in transit; that in this case the railroad got less than six mills per mile for carrying the mail and was being sued for $9,000; that the government did not assume liability to the senders for the mail, although in a few cases the statute did provide for the payment of $100, but in no case had more than $25 been paid. The attorneys for the road said that this was the first time the question of liability had been raised. Mr. Elliott said that the road did not have any control over the mail cars, the employes not even being allowed to enter them.

Judge Connor took the matter under advisement and will announce his decision later.

Colonel Skinner made a motion that the bond of the plaintiff in the case of Thompson against Harmon, which case was on trial before Judge Waddill when Judge Purnell died, be increased, stating that the cost had already amounted to about $1,500 and would doubtless reach $2,500 while the amount of the bond is but $1,100. The motion was resisted by Hon. John D. Bellamy and ex-Judge E. K. Bryan, who argued that it was no fault of the plaintiff that the case was postponed. The judge took the same view and allowed the bond to stand as at present. The trial will probably be in January.

Herbert McClammy, Esq., asked for information as to the manner of procedure in the James bankruptcy case in which he and George Rountree, Esq., appeared as counsel for certain creditors. The higher court had decided in favor of the creditors and allowed counsel to set aside a number of buggies out of the assets. The trustee had left the buggies in possession of the bankrupt and while the matter was pending in court the buggies were used and damaged about $500. He thought that it was probable that he could have the bankrupt served with a rule of contempt or the trustee made to pay the damages. He was advised to refer the matter to Geo. H. Howell, Esq., referee in bankruptcy.

On petition of Robert Ruark, Esq., the case of J. M. Merritt vs. Waccamaw Lumber Company, suit started in the Superior Court of Columbus county, was removed to the Federal Court. It is an action for damages in the sum of $10,000.

Ex-Judge E. K. Bryan made a motion to dismiss the sci fa in the case of Daniel McNeill, but he was requested to file the regulation answer and was given to the Fall term to make answer.

Upon the request of District Attorney Skinner the bond of M. Long, white, charge with retailing, and now in jail in Raleigh, was fixed at $500 and an order for his removal from the Wake county jail to New Hanover jail was signed. Long escaped from Columbus jail some time ago and was recently recaptured in Florida. It is stated that there are several cases against him besides the one for retailing.

Hon. John D. Bellamy and ex-Judge E. K. Bryan brought up two matters of retax of bills of costs in admiralty cases. The one brought up by Mr. Bellamy was taken under consideration and the other, that of the Wilmington, Southport and Little River Transportation Company, was set for hearing today.

BOARD OF ADUIT AND FINANCE

Concurred in Appropriation For Improvement of Dickinson Street. Two Bonds Accepted—Further Consideration.

The Board of Audit and Finance met at 8 o'clock last night in regular semimonthly session with Chairman M. J. Heyer presiding and all members of the board in attendance as follows: Messrs. W. B. Cooper, M. G. Tiencken, H. C. McQueen and Jesse Wilder. The Board was in session only an hour, adjournment being taken at 9 o'clock.

The Board concurred with the Board of Aldermen in appropriating $2,000 for the improvement of Dickinson street, from the hospital to the railroad, a distance of about four blocks. The matter came up before the Aldermen at the last meeting and it was stated that the street is almost impassable. The matter of defraying the expenses of the Mayor and the special aldermanic committee which left for Washington yesterday was brought up for consideration. It was decided to pay the expenses of the trip for the inspection of the crematory plants, but the Board declined to appropriate anything to the committee to take up the Custom House proposition, the members of the Board feeling that the government had already decided upon the site it proposed to use.

The bond of the Consumers' Ice Company for $300, with John C. Springer as surety, was approved, as was also the bond of Chief of Police N. J. Williams for $1,000 in the American Bonding Company, of Baltimore.

The Board reconsidered its former action relative to a bill for $41.40 for special detective work in running down "blind tigers," and decided to allow the payment of the amount.

There was no action on the matter of completing the budget on account of the failure of the Board of Aldermen to send over the information asked for as to the comparative cost of removing garbage and trash from the streets by contract and by the city. No action will be taken until the desired statement has been received from the Aldermen.

SOUTH AMERICAN WAR CLOUD

Argentina Dismissed Bolivia's Minister—Latin Blood is Up.

(By Cable to the Morning Star.)

Buenos Ayres, July 20.—The Argentine government has sent his passports to the Bolivian minister here, ordering him to leave Buenos Ayres within 24 hours. The government has also telegraphed Senor Fonseca, Argentine minister to Bolivia, to leave LaPaz immediately.

The action of the Argentine government follows the refusal of Bolivia to accept the decision of Argentina in the matter of the boundary dispute between Bolivia and Peru.

The Bolivian minister today advised the Argentine government that Bolivia had decided to submit to parliament for consideration the arbitral award rendered by President Alcorta.

In addition, the Argentine Republic has taken offense at the action of the President of Bolivia, who, it is asserted, has sent circulars to the prefects throughout the country, casting reflections on the Argentine government.

SEVEN LABORERS KILLED

Fatal Explosion on Pennsylvania Railroad Yesterday—Men Buried.

(By Wire to The Morning Star.)

Easton, Pa., July 20.—Seven laborers, all foreigners, empolyed on the construction of the Delaware, Lackawanna and Western Railroads cut-off at Vail, N. J., were killed by an explosion of dynamite today. One of them who was trying to dig out a large charge of dynamite that had failed to explode, was literally blown to pieces when his pick struck the explosive. Eight of his companions who were working in the deep cut were unable to escape the tons of earth and rock that were started by the shock and were buried more than 15 feet deep. Four bodies were dug out late this afternoon. Two others were taken out alive but cannot recover while two are buried beneath the tons of rock and dirt surely dead. The men were known only by numbers.

(By Wire to The Morning Star.)

Asheville, N. C., July 20.—Thirty "near-beer" venders were arrested tonight on warrants sworn out by three private detectives brought here and employed by the Law and Order League of this city today. The warrants alleged the sales of near-beer on 20 cases and the sale of liquor in ten.

MUST ENTERTAIN VISITORS

Arrival of 800 Georgians Today With Crowds Already Here Will Tax Accommodations—Chamber of Commerce to Rescue.

With the beach hotels and cottages already taxed to their utmost, the arrival of eight hundred Georgians for a five days' outing in the city and at the seaside resorts this morning has presented a situation as to their entertainment which has given much concern to those who have a civic pride in the town and beaches.

The first train of eight Pullman coaches will arrive here this morning well filled with visitors, largely from Atlanta. According to a telegram received last night from Division Passenger Agent C. D. Wayne in Atlanta, eight hundred tickets were sold for the excursion and it is easy to be seen that the resorts, Carolina Beach and Wrightsville, will be overrun for the five days that the excursionists are here. Alive to the situation, the Wilmington Chamber of Commerce asks that all hotels or boarding house proprietors who can furnish accommodations in this emergency, telephone early this morning to Secretary J. A. McGeachy, No. 19, the number they can entertain, the location and the rate. This information will be tabulated and placed at the disposal of the visitors who may make their reservations as they deem best. The class of excursionists are the very best and it has been suggested that in such an emergency, it would not be amiss for public spirited citizens to even throw open their private homes to the visitors.

ACCOMMODATIONS WANTED.

Proprietors of hotels and boarding houses in the city who can furnish rooms and board for the large number of Georgians expected in the city today are requested to 'phone early this morning to Secretary J. A McGeachy, Chamber of Commerce, No. 19, number of persons they can entertain, location, rates, etc., it being imperative as a matter of public spirit that entertainment for these visitors be provided. The information will be confidential and will be placed in the hands of visitors desiring accommodations, who will make their own arrangements.

CREW AND STEAMER SANK.

A Collision in Upper New York Bay. All of Crew Saved Except One.

(By Wire to The Morning Star.)

New York, July 20.—The Martha Stevens, a freight steamer belonging to the Trenton Transportation Company, of Trenton, N. J., collided with the tug Confidence, of the Southern Pacific Steamship Company, in upper New York bay today and sank almost immediately. Her crew of eight men besides the colored cook and her baby were all rescued excepting Cachariah Logue, of Boundbrook, N. J., the second engineer. Logue's companions tried to keep him afloat, but he slipped out of their hold and was drowned.

The collision occurred in the Greenville channel about half a mile from Robbins Reef between Staten Island and the Brooklyn shore. The tug struck the freighter bow-on tearing an immense hole and the Stevens went down so quickly that the crew did not even have time to climb on the afterdeck, which remained just above the water after the boat rested on the bottom in the 30-foot channel.

SUICIDE OF NEGRO WOMAN

Despondent Over Bad Health Lucy Kersey, Aged Negro Woman, Hangs Herself—Death From Strangulation.

Despondent on account of continued ill health, being a sufferer with dyspepsia, Lucy Kersey, colored, 69 years old, who came here about two months ago from Weldon, committed suicide early yesterday morning by hanging herself, death resulting from strangulation. There was no evidence of a struggle.

The woman lived all her life in and around Weldon, where she was well known and liked as a servant, being in the family of Dr. Green, of that place for years. She came here about two months ago and was employed at the home of Mr. Jos. B. Fountain, 1806 Princess street. She came in the hope that a change of residence would be of benefit to her. Like all old time darkies she did not believe in lying in bed late in the mornings and was up yesterday about 4 o'clock. She was missed by the family about 5 o'clock and shortly afterwards a search was made for her.

Her lifeless body was found dangling from a twine string suspended from an iron pipe in the basement. Dr. C. D. Bell, county coroner, was notified about 7 o'clock and went to the scene. He deemed an inquest unnecessary and gave permission for the removal of the body. Her feet were touching the cement floor, her knees slightly bended, and her hands hanging down by her side. Her neck was not broken and Dr. Bell stated that death resulted from strangulation. There was a pile of wood near where the body was suspended and it is thought that she climbed upon the wood and jumped off, expiring almost instantly.

The body was turned over to Alex. Davis, colored undertaker, and prepared for burial, and shipped to Weldon. It is very seldom that one hears of a colored person committing suicide, especially one of slavery days.

THE SUTTON TRIAL.

Wild West Rampage Seems to Have Been in Progress.

(By Wire to The Morning Star.)

Annapolis, Md., July 20.—The proceedings at today's session of the court of inquiry which is investigating the death of Lieut. James N. Sutton, U. S. M. C., of Portland, Ore., took a sensational turn when First Lieut. William F. Bevan, of the United States Marine Corps, now attached to the battleship New Jersey, took the witness stand near the adjournment of court and related his part in the tragedy in the early morning of October 13, 1907, when young Sutton met his death. Lieut. Bevan was officer of the guard in the marine camp on that night and one of the first men to reach the scene of Sutton's death.

Like Lieut. Adams, he testified that Sutton deliberately shot himself but beyond the cardinal fact, his description of Sutton's alleged suicide varied in important details from the story told by Adams, the man who said he had participated in a life and death struggle with the young Oregon lieutenant just prior to his act of self destruction.

The most glaring disagreement with Adams' story came when Bevan swore that he and two other officers were on top of Sutton trying to hold him down to prevent him from using his revolver when Sutton freed an arm from under him and fired a bullet into his own brain after some one remarked that he (Sutton) had killed Lieutenant Roelker. Adams testified that he had risen from Lieutenant Sutton's body and that Sutton lay exhausted and alone on the ground when he saw him raise his right hand and fired the shot that ended his life.

POSSE AFTER NEGRO.

Determined to Lynch Brute Who Assaulted a White Woman.

(By Wire to The Morning Star.)

Vinings Station, Ga., July 20.—Automobiles and bloodhounds started today in pursuit of a negro who criminally assaulted Miss Exey Brown near here this morning. The automobiles were filled with a posse of excited and heavily armed men determined to lynch the negro if they catch him.

ACCIDENT ON COAST LINE.

Four Cars of Excursion Train Turned Over and Number Injured.

(By Wire to the Morning Star.)

Ocala, Fla., July 20.—Four cars of an excursion train on the Atlantic Coast Line turned over five miles north of here at noon today while the train was running 30 miles an hour. Two men were badly injured and a score of others were bruised or cut by flying glass.

Proprietary Medicines Prescribed by Doctors.

Examination of the formulary departments of leading drug stores throughout the country has proved that a very large percentage of the prescriptions filed for doctors are for proprietary medicines.

This is because the average doctor of today is unable to devise prescriptions equally as efficacious.

Such standard remedies as Lydia E. Pinkham's Vegetable Compound are prescribed over and over again by fair-minded physicians throughout the country.

CERTIFICATE OF DISSOLUTION

To all to whom these Presents may come—GREETING:

Whereas, It appears to my satisfaction, by duly authenticated record of the proceedings for the cvluntary dissolution thereof, by the unanimous consent of all the stockholders, deposited in my office, that The King Distilling Company, a corporation of this State, whose principal office is situated at No. .... street, in the city of Wilmington County of New Hanover, State of North Carolina (W. M. King being the agent therein and in charge thereof, upon whom process may be served,) has complied with the requirements of chapter 21, Revisal of 1905, entitled "Corporations," preliminary to the issuing of this Certificate of Dissolution,

Now, Therefore, I, J. Bryan Grimes, Secretary of State of the State of North Carolina, do hereby certify that the said corporation did, on the 29th day of June 1909, file in my office a duly executed and attested consent in writing to the dissolution of said corporation, executed by all the stockholders thereof, which said consent and the record of the proceedings aforesaid are now on file in my office, as provided by law.

In Testimony Whereof, I have hereunto set my hand and affixed my official seal at Raleigh, this 29th day of June, A. D. 1909.

J. BRYAN GRIMES,
Secretary of State.

SPIRITS TURPENTINE

—Bessemer City, July 19.—The Mascot Manufacturing Company, which has been closed down since last fall, began operations today. The business outlook here is more hopeful now than for some time.

—Lumberton Robesonian: The Croatan Indians will hold an all-day picnic at Union chapel, near Buie, Saturday. Colonel N. A. McLean and State Senator D. P. Shaw, of Lumberton, and Mr. Hamilton McMillan, of Red Springs, will be among the speakers, and it is expected that the day will be a memorable one.

—Lincolnton, July 19.—Professor Furman has started the Sullivan diamond drill to bore 1,000 feet deep on the great tin veins owned by the Piedmont Tin Mining Company, two miles from Lincolnton. The drill will be operated by J. S. Mitchell, who has bored successfully over 4,000 feet deep. This means a new era for North Carolina and the piedmont region of the South.

—Lenoir News: Colonel Julius A. Dula tells us he has developed a new apple from a cross between a Dula Beauty and the old Winter John. The partaking of the qualities of both these well known varieties gives promise of being a splendid success. Mr. Dula is one of the best apple growers in this part of the country and is meeting with much success in spraying and properly cultivating the fruit.

—Rockingham, N. C., July 19.—"Coincidental with the sale of the Rockinham Power Company and the statement that this great hydro-electric plant comes the announcement of Messrs. W. B. Cole, William Entwistle and others that they will organize and build a million dollar mill at Rockingham without delay. Other mills and enterprises will follow. 'The best town at all,' is growing by leaps and with facts that promise to give it bounds."

—Lumberton Robesonian: Mr. and Mrs. A. W. McLean will leave this evening for New York City and will be away a month or so. They had intended to go to Europe at this time and had engaged steamer passage, but owing to the fact that Mrs. McLean has not been entirely well for some days they have cancelled steamer arrangements and will decide later about going abroad. If Mrs. McLean's health permits they will go abroad before returning home.

—Lumberton Robesonian, July 19.—Jim Allen, Croatan, was brought to jail yesterday by Deputy T. C. Barnes on a warrant charging him with running away with Flora Jane, 14- year-old daughter of Bright Ward, who lives just across the river. Jim and the girl left home Saturday afternoon and they were caught yesterday as they boarded the train at Proctorville. They were making for South Carolina. Jim had a pistol on his person when arrested.

—Rocky Mount, July 19.—Arrested upon the charge of bigamy and with facts that promise to give him trouble, Mr. Will Doles, a former planter of Nash county but who has more lately held a position with the Atlantic Coast Line, is in the lock-up in this city awaiting a hearing in record's court here tomorrow morning. The alleged facts in the case are that Doles has a wife and several children, who are living in the Dortch section of Nash county, but that he has abandoned them and left them to the support of their mother, who is a thrifty young woman of a most commendable character. For the past two years, it is charged, Doles has been living with Viola Holmes in violation of the moral law of the land and the warrant was taken out for him upon this charge, but when he was arrested the woman stated that she was married to Dolts in Florence, S. C., and that a Rev. Mr. Oliver performed the ceremony. There are several pitiable phases of the case. Doles' first wife, a woman who bears the best of reputation and is of good family, is to be pitied, while the young woman, who he claims to have married in Florence, is not more than 26 years old and in a delicate condition. She is not so much to be pitied except for her ignorance in such matters, for she had every reason to know that the man she was marrying had a living wife. The girl has a mother and several brothers and sisters who ae residents of this city.

—Spring Hope, July 19.—A very destructive fire visited the town yesterday morning between 1 and 2 o'clock, and as a result the Stevens Box Factory almost in the very hear of the town was burned to the ground. Adjoining buildings, including several residences, the Methodist church, and the Spring Hope Oil Company's plant, were threatened with destruction, but by desperate efforts on the part of the men of the town, who turned out in full force, all these buildings were saved. The loss, as estimated by Mr. Stevens this morning, is as follows: Machinery, $8,500; building, $2,200, and stock on hand, $5,000, making a total estimated loss of $15,700. The insurance is $9,200 being placed as follows: $5,000 on the machinery; $1,200 on the building, and $3,000 on the stock on hand. The origin of the fire is unknown. The box factory was built a little less than two years ago, in that time has done a good business here. Thousands of dollars have been paid in wages to employes and much money has gone to timber owners for box material. Mr. Stevens, who is a native of Delmar, Del., and a hustling and energetic business man, says that he will rebuild at once. The factory has orders now for box material to keep it running for more than a year. It has been thought for some time that the factory here would be enlarged, and now the citizens of the town are expecting the enlargement to come with the plans for re-building. It is suggested that the site will be changed to some place not so near the center of the business portion of the town.

THE COTTON MARKET.

(By Wire to the Morning Star.)

New York, July 20.—The cotton market more than recovered yesterday's loss during today's trading with the active months selling $1 per bale above the closing prices of last night. The close was steady and only 2 or 3 points off from the best at a net advance of 30 to 38 points. The market opened firm at an advance of 6 to 13 points on better cables than expected, the failure of official reports to confirm yesterday's private reports of good rain in Texas and a special condition report from the National Ginners Association making the average condition of the crop only 72 per cent., against 75.6 per cent. toward the end of last month. Trading was not particularly at first and a good deal of long cotton came on the market but demand was steady and the market gardually worked higher until new crop positions reached the 12c level. It had been apprehended that at these prices liquidation by old longs would become heavier but nothing of the kind developed and after the realizing sales of early buyers had been absorbed the market developed the greatest strength and activity of the day on covering by bear leaders, heavy Wall street investment buying and an apparent revival of more general conference on the long side on the ground that liquidation had run its course. December contracts sold at 12.17 in the late trading or fully 40 points above the closing of last night and closed at 12.14 or within three points of the top. The weekly weather report read bullishly as to Texas conditions. Southern spot markets officially reported early were unchanged to 1-4c lower. Receipts at the ports today were 2,785 bales against 4,894 last week and 5,727 last year. For the week 25,000 bales against 30,239 last week and 23,660 last year. Today's receipts at New Orleans 1,342 bales against 1,789 last year and at Houston 467 bales against 214 last year.

THE DRY GOODS MARKET.

(By Wire to the Morning Star.)

New York, July 20.—The dry goods markets are moving along in a moderately active way. Staple prints are having a good sale in domestic and foreign markets. Yarns are firm and moderately active. Foreign lines of men's wear are having a better sale than usual. Fancy lines of domestic men's wear are being shown for Spring. Cotton goods generally are firm but in moderate demand.

MARKET GOSSIP.

(By Wire to the Morning Star.)

New York, July 20.—The stock market today might be said to have been waiting on the return of J. P. Morgan, whose arrival from Europe is expected tomorrow. The aggressive pushers of the recent advance in United States Steel were disturbed by a suggestion that the expected increase in the dividend had not been determined on and might be considered as improbable.

Holders of United States Steel above 70 do not view with equanimity the prospect of continuing to hold the stock as a 2 per cent. dividend payer and even the suggestion of a 3 per cent. rate leaves a lack of assurance amongst recent speculative buyers.

The dragging tendency of United States Steel proved an obstacle to the efforts to advance prices and more than once pulled the market back after it had set out for higher levels.

Interest attached to the news that the Union Pacific had sold its $10,000,000 holdings of Atchison preferred to a syndicate under the direction of its own bankers. Union Pacific sold 1-8c higher than its former record.

Time money held its firm tone and foreign exchanges rose sharply giving color to predictions that further large shipments of gold to Argentina remained to be made.

Bonds were firm. Total sales, par value were $4,020,000. United States 4s registered declined 1-4 per cent. in the bid price. Total sales of stocks today were 639,100 shares.

CHICAGO PRODUCE MARKET.

(By Wire to the Morning Star.)

Chicago, July 20.—Perfect weather for harvesting caused a further slump in the price of wheat today for July wheat on the board of trade. The more distant deliveries, however, were strong on talk of damage by hot weather in the Northwest. At the close the July delivery showed a net loss of 1 1-8c, while other options were 3-4 to 1c higher. Corn and oats closed strong and provisions steady.

Close With Wilson.

Wilson, N. C., July 20.—It was a pitcher's battle today between Anderson and Muir and it took ten innings to decide the contest. Cooper for the locals started the score getting but never again until the tenth did a home boy cross the plate, and this was accomplished by Cooper again when Miller swatted to left for two bases.

In the fourth inning the boys from the turpentine section of the upper Cape Fear attempted to rosin Andy's ball, but it was no go. The visitors at no time in the game got farther than second base until the 9th, in this inning they got a lonesome one. The Highlanders and Tobacconists are evenly matched and the playing by both teams was of the gilt-edge variety.

Cooper's fielding was a feature, accepting nine chances, after which he made an error and allowed the only run. It is understood that the visitors will protest the game on the ground that Anderson and Yerkes are not Wilson men; that they have been sold and the purchase price paid. Score:

THE AUTOMOBILE HIGHWAY.

Largely Attended Meeting at Fayetteville—Death of Mrs. Fetner.

(Special Star Telegram.)

Fayetteville, N. C., July 20.—A public meeting at which every town between Weldon, N. C., and Bennettsville, S. C., was represented either in person or letter was held in this city today for the purpose of organizing the New York and Jacksonville Auto Highway Association.

The work of this Association is the laying out of a first-class automobile highway through this part of North Carolina, South Carolina and southern Virginia and obtaining for this section the proposed auto highway from New York to Jacksonville. The Association which embraces every town between Emporia, Va., and Cheraw, S. C., organized by electing Mr. F. R. Rose, secretary of the Fayetteville Chamber of Commerce, as president, and Mr. J. M. Black, of Red Springs, secretary and treasurer. An executive committee of five of which the president is an ex-officio member, is to have charge of the Association's affairs. This committee will name from its members a roadway commission of three, which will select the route of the proposed highway and go over it placing at intervals signs reading "New York and Jacksonville Auto Highway." The meeting was well attended and great enthusiasm was manifested.

Mrs. Ross Fetner, of Rockingham, N. C., died last night at the home of her mother, Mrs. Josie Hedgepeth, in this city. Mrs. Fetner was a very beautiful and accomplished young woman. She was in the 17th year of her age and was married about six months ago. She is survived by her husband, her mother and several brothers and sisters.

RIOTING IN SAVANNAH.

One Killed and Several Injured in Bloody Battle Between Negroes.

(By Wire to the Morning Star.)

Savannah, Ga., July 20.—As the result of a battle between members of the Eureka Social Club, a negro organization and negroes employed at Lincoln Park, an amusement park near here, last night, thirty negroes are under arrest at the police station charged with rioting. In the battle Joe Barnard was killed, William Young fatally shot, Murchie Moore twice wounded, William Mumphies, president of the club, lost one finger, and others received minor wounds.

Life 100,000 Years Ago.

Scientists has found in a cave in Switzerland bones of men, who lived 100,000 years ago, when life was in constant danger from wild beasts. Today the danger, as shown by A. W. Brown, of Alexander, Me., is largely from deadly disease. "If it had not been for Dr. King's New Discovery, which cured me, I could not have lived," he writes, "suffering as I did from a severe lung trouble and stubborn cough." To cure Sore Lungs, Colds, obstinate Coughs, and prevent Pneumonia, its the best medicine on earth. 50c and $1.00. Guaranteed by R. R. Bellamy. Trial bottle free.

BASE BALL

National League.

New York, July 20.—New York's chances for the National League pennant received a serious set-back this afternoon when in the seventh inning of the game with St. Louis, "Christy" Mathewson, the team's star pitcher, had the second finger of his left hand broken in stopping a liner from Delhanty's bat. Mathewson has been New York's one consistent winner this season and has not been defeated since May 24th.

Mathewson left the game immediately and a surgeon who attended him reported that it would be at least two weeks before he could twirl again. Manager McGraw was banking heavily on Mathewson in the series with Chicago starting Thursday.

Doubles by Phelps and Evans, the latter a former member of the local team, gave St. Louis a 4 to 3 decision over New York today in a 11 inning game.

BIG FIRE AT ORANGE, Va.

Swept Business District of Town and the Loss is $75,000.

(By Wire to The Morning Star.)

Orange, Va., July 20.—Fire that swept the business district here today caused $75,000 damage, only partially covered by insurance. The conflagration, the second destructive one since last November when two blocks were reduced to ashes, broke out early today in Cook's blacksmith shop, swept along Railroad avenue and was finally subdued after an entire block had burned. Railroad engineers and a buckea brigade were brought into play.

The property destroyed included the Piedmont Hotel, The Orange Star building, with its store rooms and printing room, the Martin grocery, the L. J. Mann grocery and dwelling, the A. T. Grasty Lumber Company plant, the joint station of the Southern and the Chesapeake and Ohio railroads, and Cooks Blacksmith shop.

Sees Mother Grow Young.

"It would be hard to overstate the wonderful change in my mother since she began to use Electric Bitters," writes Mrs. W. L. Gilpatrick of Danforth, Me. "Although past 70 she seems really to be growing young again. She suffered untold misery from dyspepsia for 20 years. At last she could neither eat, drink nor sleep. Doctors gave her up and all remedies failed till Electric Bitters worked such wonders for her health." They invigorate all vital organs, cure Liver and Kidney troubles, induce sleep, impart strength and appetite. Only 50c at R. R. Bellamy's.

BAD RUNAWAY IN RALEIGH

(Continued From First Page.)

dered the case of Washington Whitaker, colored, on trial for his life for entering the home of W. R. Collins on the evening of April 8th, and shooting three times at Mrs. Collins, thrown out of court on the ground of mistaken identity. Mrs. Collins was positive in identification but there was such a strong alibi and an array of character witnesses from Tarboro for the negro that the judge concluded not to allow the case to go to the jury. Whitaker was a musician with a carnival band at the time of the alleged burglary.

Quite a number of improvements are under way at the State Fair grounds, the latest and one that will be gladly welcomed, being macadam for the midway. The first installment of the crushed stone, five car loads, arrived from Graystone. Secretary Pogue says the outlook for special attractions this year at the Fair is the very best in all his experience. The races are also sure to be far and away the finest in the history of the fair association. Being on a complete circuit with no conflicting dates in the State will eliminate all competition so that the attendance can but be the very best.

Walter Morrison, who is to be the first to pay the death penalty in the new electric chair equipment just installed in the penitentiary in accordance with the act of the recent Legislature, has been brought from Robeson county to the State's prison where he is to remain until September 10th, the day set for his electrocution for criminal assault on a Croatan woman near Elrod.

Morrison was brought here by Sheriff E. C. McNeill and Deputy J. A. Kitchin. Another prisoner was Orange Calder, a Croatan who is to serve five years for burglary. He was first given three years on the Robeson county roads but appealed to the judge that he had rather take a five year sentence to the State prison and this change was made.

LYNCHED IN KENTUCKY

Assailant of Sheriff Taken From Paducah Jail and Swung Up By Mob.

(By Wire to The Morning Star.)

Paducah, Ky., July 20.— Without firing a shot a mob took Albert Lawson, the negro, who shot Sheriff R. M. Compton at Paris, Tennessee, Sunday from the Paris jail tonight and hanged him to a mulberry tree a few yards from the prison.

An attempt was made early this afternoon to lynch the negro. He was taken to the court house yard where a rope was placed around his neck but as the negro pleaded, more conservative men and the county officials appeared on the scene and begged the mob to allow the law to take its course. Whereupon he was again locked up.

Later Sheriff oCmpton issued a petition over his own signature requesting the people to let the law take its course, stating that he was much better.

Tonight a large mob with the rope used earlier in the afternoon went to the little prison, battered down the door and lynched Lawson.

Lawson was captured early today under a negro's house in Paris. He had had but one meal since the shooting.

TOBACCO EXPERIMENT STATION.

South Carolinans Working for One in Pee Dee County.

(By Wire to The Morning Star.)

Washington, July 21.—Commissioner of Agriculture Watson, of South Carolina, accompanied by Representative Lever, of that State, and W. C. Davis and Carlton Durant, of the Manning, S. C., board of trade, had a conference with Secretary Wilson, of the Department of Agriculture, today respecting particularly the location of a tobacco experiment station in the Pee Dee section of South Carolina.

They requested also that an expert of the Bureau of Animal Industry be sent to South Carolina to co-operate with the officials of the State in animal industry work.

Secretary Wilson said he would be glad to oblige his callers in any way possible, but it would be necessary for him to confer with other Department officials before granting their requests. He indicated that he would give them an answer promptly.

LYNCHING AT EASTMAN, GA.

Negro Who Frightened Young Ladies Victim of Mob Vengeance.

(By Wire to The Morning Star.)

Eastman, Ga., July 20.—King Green, a negro, was lynched and his body riddled with bullets at Gun Branch this morning. The Misses Nicholson, daughters of Sam Nicholson, one of Eastman's prominent citizens, while four miles out from Eastman, were met in the road by the negro, who held their horses and told them to get out. The young ladies whipped their horse, but he held on until frightened by their screams.

After a run of several hours, the negro was captured. The sheriff and his deputies were met at Gum Swamp by a posse of 175 men who strung Green to a sapling, after which the crowd quietly dispersed.
